

The Andersons To Perú

July 2017

Our Spanish church, English church and new House church came together to celebrate another anniversary. Our goal is not to become a mega church, but start many smaller churches in the area.

*One difficulty of working with many families from the Embassy is that every June and July we lose several families who have been sent to new posts. We are grateful for the families who helped start our English church **New Life in Lima** over three years ago and we are sorry to see them leave. At the same time new families have started coming and Lord-willing we will reach many more for Christ.*

*Krista and Risha had the great opportunity of translating for and working with a team from **Joni and Friends and Wheels for the World** to help fit more than 100 adults and children with wheelchairs, walkers, crutches and canes for free.*

Please pray for us as in August Krista will be leaving to start her studies at Crown College in Tennessee. We are excited for her but will have some adjusting to do without her here with us.

Thank you for your prayers and support,

Rick and Kathy Anderson
