

# The Andersons To Perú

November 2017

Dear Friends,

*This year we had the privilege of accompanying the La Molina Christian School seniors on their senior trip.*

*Seventeen of the seniors were able to go and we enjoyed having this time with them. God protected us all, and even though 15 of the 17 came down with a viral infection, no other major problems occurred. We pray that God will*

*continue to guide each one of these seniors. They will graduate in December. We pray that each one of them would know Christ personally and have a desire to serve Him.*

**Class of 2017**

*This semester the sixth grade girls along with their teachers have come to our house several times for a time of fun and Bible study. Their teachers have a desire to see these girls cultivate their relationship with God. We appreciate the time and dedication of these teachers as they invest in their students.*

*Three former teachers from LMCS who have married and settled in Lima started an English Book Club for young children and their mothers. Children from our school join others from local private schools for a time of book reading, games, crafts and snacks. This has been a great evangelistic outreach. In December they present the Christmas story in drama to children in a poor area nearby. Even the unsaved mothers get involved and while they help, they also are hearing the Gospel!*

*Thank you for your continued support and prayer for us here in Perú!*
