

THE · PRICE · UPDATE

September - October 2017

What an amazing last several months we have lived. In July, we were able to complete the stucco project on the church building, baptize new convert Doris, and

continue so many other normal activities to grow our church. With the help of a missions team, we also conducted an evangelistic outreach at the Tour de

France. In August, we were able to spend a week with Melissa's family and enjoy the wedding of her youngest sister as well as visit many of our supporting churches.

God has brought a great financial blessing to us! With the help of another French church, we were able to purchase our church building. This church was able to lend the remaining funds (30,000 Euros) needed to purchase the property without having to go through a bank. Before leaving, we were able to start the purchase process, and everything should be finalized before the end of the year. If you would like to help with the purchase of the property, the church would be grateful as it is our desire to repay the French church as quickly as possible.

PRAISES and REQUESTS

- Praise the Lord for our safe arrival to the USA and safety in travel during furlough.
- Praise the Lord for Doris's baptism.
- Praise the Lord for the finished stucco project of the church building.
- Praise the Lord that we are able to purchase the church building with the help of another French church.
- Pray that we would be able to raise more support while on furlough.
- Pray for safety in travels.
- Pray for our church in France while we are away.

Furlough

What a blessing it is to be back in the USA! We arrived on August 4, and were able to spend a week with Melissa's family before hitting the road to start visiting our supporting churches. I have traveled more than 5,500 miles since and have been in ten churches between WY, CO, NV, AZ, NM and IN. What an encouragement to see how God has been working in these churches. In September, we will be in the Northeast visiting with family and with new and supporting churches. Please pray that the van that was provided for us through BMTM would not have any problems.
