Subject: Grenada prayer letter Nov 2017

Dearest friends,

We just returned from a 4,400 mile road trip that took us through 12 different states. We spoke at 9 different churches, including 3 missions conferences. Terri was able to participate at all 9 churches and we thank God for this because in September we had quite a scare. She was not able to function and even going up a few stairs caused her heart to race and for her to almost pass out. We got her to her doctor, where they ran blood tests, did an EKG and x-ray and everyone started "stat" procedures. The doctor's office told Terri to get to the hospital immediately for blood typing. Her hemoglobin levels were far below the dangerous levels. Normal is 12–15. Below 8 is severe anemia. Terri's was 6.9! She had to have an immediate blood transfusion! Her Dr. also prescribed iron pills. Then a Pastor's wife from Texas suggested that she try an iron pill called Hema-Plex. In a few weeks Terri has had great improvement in her ability to function and lead a more normal life. She is improving a little every day!

WE PRAISE THE LORD!

Our speaking schedule now continues in Illinois, Michigan and Missouri. Lord willing, we leave January 2 to head back for our evangelism trip in Grenada.

We thank each of you for your prayers and financial support of this ministry! You are a Godsend to us! Because of you, we are able to continue this ministry! It is very humbling to be used of the Lord to minister to not only thousands of people here in America, but thousands of people in Grenada as well!

We have people already signed up for a missions trip with us in 2018, 2019 and 2020! THANK YOU, LORD!

We pray you have a wonderful Thanksgiving with your families and a blessed Merry CHRISTmas as we celebrate the birth of our Saviour, Jesus Christ!

Serving the Lord with joy unspeakable,
Kerry & Terri Psinas
