Shalom Cherverim (Friends)!

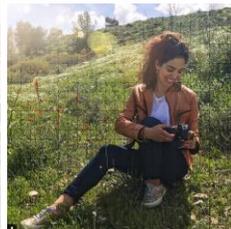

Wow! This month in ministry has been aaaaamazing!! Let me tell you about it!

ONE MORE SAVED!

I once again visited the Herbert Akins Elementary School after classes were over, to teach in the Good News Bible Club that is established there. After the lesson, a little boy named Luke came to me and said he wanted to ask Jesus to save him! I asked him some questions just to make sure he understood, and then he accepted Jesus as his Saviour! **Praise the Lord! Please pray for Luke's continued growth in the Lord!**

MY CUP RUNNETH OVER

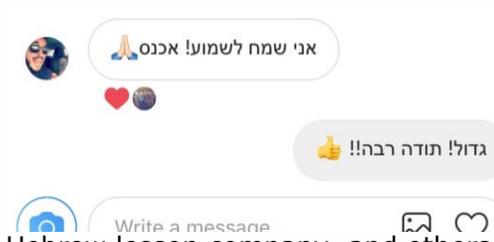

You know how I've been praying for more Jewish contacts? Well **I've made 75 in the last 2 weeks!** I'll explain. I've been using *Instagram* (kind of like Facebook, but solely photo based) to gain Jewish contacts!

Many have "followed", or "liked" a post that I have made on my personal account or posts that I have made on our radio Instagram account. The name of the radio account is "Find Peace in Messiah". The reason for naming it this, is when people search Instagram for "Peace" or "Messiah", our page is more likely to show up. To the left is an example of one of our ShalomShalom.radio Instagram posts.

Using the "hashtags" you see at the bottom of the post are for those who search for those terms on Instagram. For example if one searches for "#israel" or "#jerusalem", this post will appear in that search because of the hashtags we use. The posts that I have made on my personal account are of photos that I took in Israel on JAM's Journey to Jerusalem tour. I include Bible verses, express love for Israel and the Jewish people, and post links to JewishAwareness.org and ShalomShalom.radio as well. This method has gotten almost 80 Israeli and Jewish responses (either a "like" or a "follow") in two weeks' time! I have followed up these responses by sending them (in English or Hebrew) a direct message through Instagram, thanking them for liking the post, and asking them to check out our radio station.

The message to the left is from an Israel fitness champion who liked one of my posts. I sent him the link, and he responds below in Hebrew "I'm happy to listen! I will check it out."

Messages like this one have been, and will continue to be sent out. We've received positive feedback from an Israeli musician, a Hebrew lesson company, and others! The man pictured above right has well over 100,000 followers on Instagram, he is following me, and liking my posts! The photos here and on the next page are all Jewish mostly Israelis (some from Scotland, Russia, USA, Australia, and England) whom I've contacted personally with the gospel. There are many more than these as well! These have been reached in just 2 weeks! I will continue to do this, and keep you updated! **Look at these faces. Pray for their salvation. They have all responded to one of my posts, and have been sent a link to ShalomShalom.radio.**
