

THE BOHMAN FAMILY

AFRICA FIELD DIRECTOR

July 2018

Dear Praying Friends,

Another trip and another opportunity to share the Gospel! Since my last letter, I have traveled to two additional countries in West Africa. I visited the missions team in the country of Togo and then visited the neighboring country of Benin (roughly where the arrow is pointing at right). In Togo, it was a joy to preach in their churches and visit other villages where they have established Bible studies. I even had the opportunity to visit a couple of village chiefs (one pictured below) and permission was granted for the missionaries to have future ministry in their villages! I then traveled over to Benin to do a short survey of the country. Sadly, we found so few missionaries laboring there! Upon my return to America, I was surprised to find that many people had not even heard of Benin!

How can God call someone to a place of which they have never heard, and how can those in Benin go to a Heaven of which they have never heard? Let's pray for more laborers into West Africa and specifically into the country of Benin!

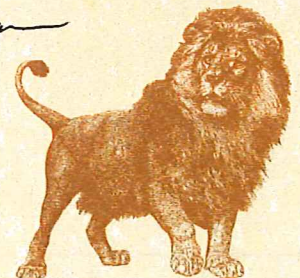

Last month, we had our Candidate School at BIMl and were thrilled to have several new missionaries approved to go all over the world. Forty-four total were present. Two new families were approved for Africa – going to work in Uganda, East Africa. Praise the Lord! Pictured at right is the "Africa" group this year. There are already three more families lined up to go to Africa through BIMl for next year's Candidate School! Keep praying because each place that has a need, God has a laborer!

Until all nations hear,

Eric Bohman
