A Vision For Europe

In December, Vision Baptist Missions held the Our Generation Summit in Ohio. It was a great meeting that allowed us to meet new young people and introduce missions to them. As missionaries to the UK, we push to get people interested in the work there and in helping us to reach the 66 millions souls who live there. On the last day of the meeting, though, I had a revelation so simple it sounds silly. We cannot be focused only on the UK; we must reach Europe as well.

There sitting in the preaching session the Lord burdened my heart for the Germans, the French, the Spanish, and the myriad millions enslaved in the darkness of sin. This land that once had the gospel and was the light to the world is now darkened with false religion, secularism, and apathy. We must have men and women with their hearts fixed on the Lord Jesus Christ that will go and share His wonderful grace with the condemned and dying!

As time goes on I will share more information about Europe and how we want to reach there, but for the moment please pray for the 5 largest countries by population:

1. Russia: 143,964,709
2. Germany: 82,293,457
3. Turkey: 81,916,871
4. United Kingdom: 66,573,504
5. France: 65,233,271

A New Addition

We have some really exciting news for all of you: we are expecting our second child in July! We are super excited and ask that you would pray for Mom and baby during the pregnancy!

Sincerely,

Sam, Beth, and Ruby Quinn
